A LITTLE WRITER

Once upon a time, there was a little boy named Andi. He had a dream of becoming a writer. He loved to write stories and novels, but his mom, dad and family didn't support him or show any interest in helping him. He had two friends, Alex and Robin, who shared a similar story.

Andi was the youngest, while Alex was the oldest. A few months passed, and Alex and Robin made mini-books of history. During these days, their parents supported them and agreed to publish the books. But Andi's parents didn't agree, leaving him disheartened.

After the books were published, Alex and Robin became famous. Andi was happy for them, but when Andi asked for their help to publish his stories, they turned selfish. They were only friends with Andi to steal his ideas and gain support.

All the stories written by Alex and Robin were actually created by Andi, but they sold them under their own names. This betrayal broke Andi's heart, and he stopped trusting anyone. He abandoned his dream of becoming a writer and started dreaming of becoming an artist instead. As exam season approached, Andi left all his activities and focused on studying. He passed in subjects that involved storytelling but failed in Maths, Science, and Sanskrit. His parents were furious and kicked him out of the house.

Homeless and heartbroken, Andi began to hate his parents and family. He worked hard and collected money by selling stories, books, novels, and art posters. This went on for a few years as he funded his education and other needs.

Now in college, Andi couldn't let go of his talents again. With no shelter, food, or money, he pushed himself to excel in both writing and art.

One day, a kind family adopted Andi. After a few months, he opened a shop selling stories, novels, and posters. The shop became highly successful. But Alex and Robin, envious of Andi's success, destroyed his shop and tried to harm him.

A man who had purchased Alex and Robin's books became curious. He asked them to write a story for him, suspecting their fame and wealth. Overcome with jealousy, Alex and Robin punched Andi and tried to kill him.

Andi, unable to bear the pain any longer, grabbed a knife – not to attack, but to protect himself. Summoning all his strength, he punched them and managed to escape.

Now consumed by anger, Andi went to his parents' house – not to harm, but to tell them everything. They still didn't listen. Andi walked away silently, heart heavy with memories of his past.

The family who had adopted him tried to stop him from running away, but Andi left – not out of hate, but out of pain. Taking the money he had earned, he fled to Japan, searching for peace.

In Japan, Andi met the man who had confronted Alex and Robin. The man offered Andi a job writing Japanese comic stories. Since Andi was also an artist, he began creating comics.

Now, Andi became very successful, rich, and happy. However, he never trusted anyone again and chose to live alone.

THE WAY IT SMELLS AFTER
THE RAIN IS CALLED
PETRICHOR

पर्यावरण ईश्वर की देन है

पर्यावरण ईश्वर की देन है,
इसे प्रदूषित मत करो, यह बहुत
ही मूल्यवान है,

इसे स्वच्छ रखो।

पेड़ काटोगे तो हवा कहाँ से
आएगी?

इसे बचाओगे तभी साँस आएगी।

जल बहुत ज़रूरी है, अगर यह
प्रदूषित होगा,

तो हर जगह सूखा पड़ेगा,

हर कोई प्यासा होगा।

पर्यावरण ईश्वर की देन है,

इसे प्रदूषित मत करो,

यह बहुत ही मूल्यवान है,

इसे स्वच्छ रखो।

Book Review

DEATH ON THE NILE

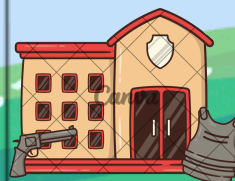

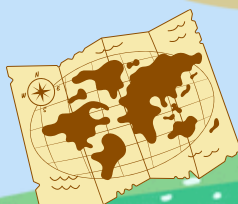

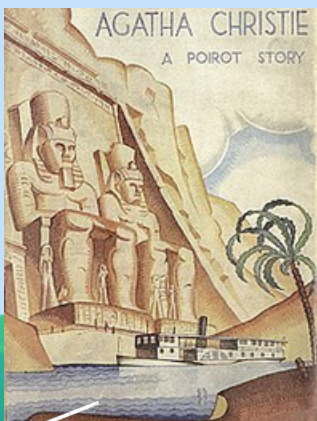

The Nile cruise was so peaceful... until everything changed! Linnet Ridgeway — she was young, pretty, smart, and had everything — was found shot in the head! Hercule Poirot remembered someone once saying, “I’d like to put a pistol against her head and pull the trigger.” Yikes! But on the Nile, nothing is ever what it looks like.

At the beginning, it felt a little like a Miss Marple story. I don’t really like Miss Marple that much — but Poirot? I loved him right away! I also watched the David Suchet version of this story. I’ll be honest, I got a little upset with Poirot at one part — not because of what he did, but because of how he did it. If you read it, you’ll know what I mean! (No spoilers!)

It kinda felt like Agatha Christie didn’t like some of her characters very much — and liked some others maybe a little too much. Some bad people didn’t even get punished the right way! One person she really didn’t like didn’t even get in trouble... but you just know karma will get them later.

I think it’s so cool how Christie ties everything together — like tiny puzzle pieces you didn’t even know were there! First, you meet all the people, and then little by little, things get more and more dangerous... until BAM! There’s a murder. And then Poirot comes in and unravels all the secrets!

I really love how Poirot notices even the tiniest clues, like one small thing that doesn’t fit — and then he pulls on that clue and the whole big lie falls apart! That’s why Poirot is my favorite, and why Agatha Christie is the BEST mystery writer ever!

THE BROKER

Imagine a powerful man with secrets that could change the game. Joel Backman's got them, and the CIA will stop at nothing to get them out of him! They'll use every trick in the book to uncover the truth.

As you dive into this gripping story, you'll be taken on a wild ride full of twists and turns. Grisham's writing is like a rollercoaster - it's fast-paced, intense, and full of surprises! But beware... nothing is as it seems. The shadows are hiding secrets, and the truth is shrouded in mystery. Who can Backman trust? And what's really at stake?

In a world where loyalty is a luxury and deception is the norm, Backman must navigate a complex web of intrigue. From the dark alleys of Washington D.C. to the picturesque streets of Italy, the stakes are high and the tension is palpable.

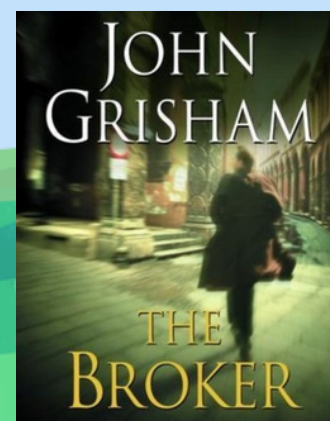

As the story unfolds, you'll be left wondering:

What secrets is Backman hiding?

Who is behind the sinister plot to capture him?

And what's the true cost of power and deception?

Dive into the world of "The Broker" and discover the answers for yourself. But be warned: once you start, you won't be able to stop!
